

The dental team at Cheyenne Mountain Dental Center is participating in the “Take a Turkey to Work Day Project.” We are also encouraging our patients to bring turkeys to the designated drop off places around town on the 12th of November.

Our staff and patients are also collecting non-perishable items for the food drive for Care and Share. If you would like to drop off your non-perishable items at our office we will deliver them to Care and Share for you. Donation cut-off time is Monday, November 21, 2010.
